# LOGOS

## Do's

These specific logos that are created to match with our company. However, to make the viewer to see it readable and unique to stand out the design accurately.

# Dont's

These logos are misusages because the colors doesn't fit well. Even the text are too close to each other, and also the small or big text makes things not consistent.

# Dimension

The dimensions that I was focusing on this company logo for Happy Tour. There were the length and width of the letter and the sun from each side.

	Minimum	Maximum
Length	10 mm	13 mm
Width	3 mm	5.5 mm

# Clear Space

The clear space between the company logo and the space is corresponding with the letter and the sun or a cloud shape of an airplane.

# Placement

Whenever you place the logo on the layout, it should always be on the upper top or lower below. However, it should not touch the line too closer to each other.
